Bachelor of Science (Biotechnology)

Enrolment Advice

Chemistry studies. Students who wish to continue their study of Chemistry at Level II will be required to undertake an additional course, CHEM 1312 Foundations of Chemistry (Biotechnology) program.

24 units must be completed for each of Levels I, II and III.

You may substitute an appropriate course chosen from Level II to fulfil the requirements of Level I, or from Level III to fulfil the requirements of Level I or II.

There is a limitation on the amount of 'Non-Science' courses that can be presented. Do not assume that because a course is offered through Sciences, that it automatically counts as 'Science' (e.g. Animal Science courses). Please refer to your Program Rules. If in doubt consult the Faculty Office for advice.

You can contact the Faculty of Sciences Office for advice.

Core Course Elective Course Course for Major

# Check Course Planner or with the Faculty of Sciences Office to ensure you meet the pre-requisites prior to enrolling into this course.

† Students who successfully complete CHEM 1101 and CHEM 1201 and wish to continue their study of Chemistry at Level II will be required to undertake an additional course, CHEM 1312 Foundations of Chemistry IS during Summer School before commencing Level II Chemistry studies.

Global Experience

The University of Adelaide is committed to offering its students the opportunity to study overseas through a Global Learning Experience. This experience is available in a wide range of degrees and can include student exchange (for either one or two full semesters), study tours, internships and placements. There are many exciting opportunities in Europe, Asia, the Americas, Africa, and Oceania ranging from a few weeks to a full academic year.

* The Faculty of Sciences recommends students who want to undertake an exchange in an overseas university plan to go in Semester 2 of Level 2 and/or Semester 1 of Level 3. To find Global Learning opportunities available in your study area click Global Experiences.

Majors

Students must achieve a major in Biochemistry. In addition, there is an option to include a second major selected from the following complimentary disciplines from the Bachelor of Science. Please note that these are complimentary majors, and are not a complete list of the majors available.

- Genetics
- Microbiology and Immunology
- Chemistry

Electives and Broadening

- Please refer to your Program Rules for electives and all other requirements http://calendar.adelaide.edu.au/
- Ensure that you check any restrictions and pre-requisites in Course Planner: https://access.adelaide.edu.au/courses/search.asp
